Hi, Rich. In terms of removal activity, Jack Kelley (OSC) would be the point of contact. From a tox perspective, ATSDR reps in Region 3 have been heavily involved. For EPA, I’ve been watching from the sidelines, but am starting to get pulled in. Also, below is a table of contacts released by the Division Director, but this mostly pertains to community concerns. If you have any questions, please let me know. Thanks.

Might you be able to help me identify who within EPA is responding to the spill near Charleston, WV?

Thanks for your time and consideration.

Hi Rich,

Any chance you could line up a Region 3 person to talk about the MCHM spill in West Virginia in a future call?
